Frontend development, Backend Development,Html,Css,JavaScript, MongoDB, Express.js,React.js,Node.js,Redux,Bootstrap,RESTful APIs, Problem solving,Team Work,Communication,Time Management

Experience

Innominz Pvt Ltd/ MERN Stack Developer

Dec 2022 - Dec 2024, Calicut,Kerala

Designed, developed, and deployed scalable web applications using MERN Stack, collaborated with cross-functional teams to identify and prioritize project requirements, implemented automated testing and deployment scripts to improve efficiency and reliability, and optimized application performance and scalability using caching and load balancing techniques..

Projects

Easy Exam web Application

A comprehensive online examination platform, utilizing MERN Stack technologies. The platform enabled educators to create and manage exams, track student performance, and generate reports. I implemented features such as user authentication, exam scheduling, and real-time result analysis, ensuring a seamless and efficient examination process.

HealthCare Web Application

The platform enabled healthcare professionals to manage patient records, schedule appointments, and track treatment plans. Patients could also conveniently book and manage their own appointments online. Key features included user authentication, data encryption, and real-time updates, ensuring secure and efficient healthcare management. Additionally, the system improved patient outcomes, enhanced clinical decision-making, and reduced administrative burdens.

Education

Bachelor of Computer Applications / University of Calicut

June 2019 - March 2022, MES College Vatakara, Calicut
